

The Fragile X Center of San Diego / P.O. Box 19551 San Diego, CA 92119

We are one gene away from curing Fragile X, the most common inherited cause of mental impairment in the world. Help us find a cure by making a donation today.

Your tax-deductible contribution will help fund our parent support, research for Fragile X Syndrome, and to promote awareness. We operate solely on gifts from individuals and corporations. We appreciate every donation, large and small, as we are run entirely by volunteer family and community members.
